Personal Motto

I transform ideas into modern web interfaces, optimize user experiences, and deliver quality product solutions using React, Next.js, and advanced frontend technologies.

Career Objective

Frontend Developer Intern with hands-on experience in React, Next.js, TypeScript, and Tailwind CSS. Proficient in implementing real-world projects, collaborating in team environments, and following professional code management workflows. Goal: Enhance frontend skills, master **Next.js advanced features and deployment workflows**, and contribute to valuable products serving real users effectively.

Education

HUFLIT University - Software Development Major (October 2022 - Present)

Technical Skills

- **Frontend:** React.js, Next.js (SSR/SSG, Dynamic Routing), Tailwind CSS
- **Backend:** Node.js, Express.js, MongoDB, MySQL, JWT Authentication
- **State Management:** Redux Toolkit, Zustand
- **UI/UX:** Figma, Responsive Design, Component Reusability, UX Optimization
- **Others:** Git/GitHub, RESTful API, Axios, SWR, Postman, Deployment (Vercel, Render)
- **Programming Languages:** JavaScript (ES6+), TypeScript

Featured Projects

Online Book Reading Platform (January 2025 - August 2025)

A modern book reading website with integrated payment system.

Role: Frontend Developer (Solo Project)

Responsibilities:

- Designed UI with Tailwind CSS, developed React/Next.js components
- Integrated APIs and implemented user authentication
- Deployed on Vercel, optimized responsive UI across multiple devices

Achievements:

- Completed frontend demo with **>90% test coverage**
- Optimized performance and experience for both desktop and mobile
- Delivered production-ready frontend independently

Technologies: Next.js, TypeScript, Tailwind, Zustand, PayOS, Express.js, JWT

Demo Credentials: userdemo@gmail.com | novelnest@@123

Live Demo: [NovelNest](#) **Repository:** [Source Code](#)

Online Programming Learning Platform (August 2024 - October 2024)

An online learning website with video system and user dashboard.

Role: Fullstack Developer (Frontend & Backend, Team Project)

Responsibilities:

- Developed frontend layout, reusable components, and optimized UX for learners
- Implemented backend APIs, JWT authentication, and user dashboard management
- Collaborated with team to deliver project on schedule

Achievements:

- Successfully implemented both frontend and backend modules according to plan
- Enhanced system performance and user experience based on trial feedback

Technologies: Next.js, TypeScript, Tailwind, Redux Toolkit, Stripe, Express.js, JWT

Languages

- English: Intermediate (proficient in reading technical documentation)

Personal Philosophy

I believe that frontend development is not just about coding, but about creating smooth, visually appealing, and effective user experiences. I aspire to work in a professional environment, learn from experienced mentors, and contribute to modern, optimized, user-friendly web products.

Key Strengths & Highlights

- Implement projects independently or in teams from frontend to backend
- Quickly adapt to new technologies, especially **Next.js advanced features and deployment**
- Committed to continuous learning and delivering tangible value to organizations
